**INTRODUCING SATUR FARMS' CLAMSHELL SALAD MIXES** | Consider Satur Farms owners Chef Eberhard Müller, and his wife Paulette Satur the "salad specialists." They grow the finest baby leaf and leafy greens on their 160 acres of sandy loam soil in Long Island. Both owners are very involved touch all aspects of the farm's operations. In fact, you'll find Paulette on the tractor in the early AM harvesting with her workers every day during the season. Satur Farms adheres to sound agricultural practices with a focus on respect for the soil. They practice crop rotations, so that the same family of vegetable is not planted in the same field block during the growing season.
