

SAVORY CREATIONS
INTERNATIONAL

SAVORY CREATIONS | Professional Chefs appreciate the superior taste and convenience of these concentrates. They are all-natural and contain no MSG's or GMO's. The Bag-in-the-Box packaging is shelf-stable – even after opening – and can sit on your shelf or walk-in for up to one year at ambient (room) temperature.

Each Bag-in-the-Box makes 30 gallons of superior flavored broth. Add a dash to soups and sauces, use to make broth or as an ingredient in our favorite marinades, brines, rubs and injections.

Savory Choice converts easily into existing recipes and saves space, money and valuable time. The liquid format is easy to measure, leaves no gritty residue and has more applications than paste.
