

Dairy Essentials

GREAT DAIRY. BETTER PRICES.

We know dairy is a critical foundation for any menu—whether it’s the butter that builds your sauces, the cream that adds richness, or the eggs that give structure and lift. That’s why we’ve taken meaningful steps to make our dairy essentials more competitively priced across categories like liquid dairy, butter, and eggs. Our goal is simple: to ensure you have reliable access to the quality ingredients your kitchen depends on, at a value that supports your business.

BUTTER

Our Baldor Essentials butters are sourced from Cabot Creamery and Plugra. Cabot churns its 80% butterfat butter from fresh pasteurized sweet cream from cows never treated with artificial growth hormones, raised on dairy farms in New York and New England. Plugra is European style butter containing 82% fat and less water than many other table butters, making it an excellent choice for baking. Think: cakes that rise higher, cookies that crisp more evenly and flakier pastries.
