

ARALIA OLIVE OILS

Wareham, MA

The Right Blend of Quality & Value.

About Aralia Olive Oils

Our family's flagship product, ARIA extra virgin olive oil, is among the finest retail and food service olive oils available, and the favorite of a growing number of discriminating chefs. ARIA is pressed solely by mechanical means from handpicked, single-varietal Koroneiki olives grown on our family farms on the island of Crete in Greece. Crete has the ideal climate for growing olives: abundant sunshine, dry climate, and minimum temperature variations all of which contribute to ARIA's unique and consistent flavor profile. We press our olives within hours of being picked from the tree assuring that their sensory qualities are preserved, and contributing to its low acidity content of less than 0.5%. The resulting taste profile that characterizes ARIA is suggestive of a bouquet of grassy, fruity freshness. ARIA has won numerous quality and taste awards including Outstanding Olive Oil at the New York Fancy Food Show, and the prestigious Superior Taste Award given by the International Taste & Quality Institute in Brussels.
