## About Christopher Ranch

Don Christopher, grew up on his families ranch, and worked side by side with his father in the orchards, but in 1956, Don set out to create a ranch of his own. Buying a plot of land in Gilroy - just ten miles south of where he was raised - Don and his brother, Art, decided to try their luck with a new kind of crop: Garlic. Planting French and Italian varieties, Don also found a variety of garlic that he thought was the most flavorful he had ever tasted. It had been cultivated in Italy for centuries, originating in the Piedmont area. Don planted this varietal, and it became the Ranch's signature garlic, Monviso. Christopher Ranch has nurtured its Monviso heirloom seed line for over half a century to preserve its exceptional flavor.
