### About Copra

Copra manufactures premium tropical ingredients from Thailand, specializing in coconuts. They are known for the highest quality, minimally processed products sourced directly from sustainable farms. Their products are made from the "Nam Hom" coconut, a unique variety of young green coconut that can only be found in Western Thailand, world-famous for their fragrance and subtle, nutty sweetness. Copra works with farmers who take pride in growing the highest quality organic coconuts, and bottle at the source to ensure that the coconuts are processed the same day as harvest.
