## About Montchevré

Montchevré is the largest goat cheese manufacturer in the United States, and continues to operate with the same core goals and values since it began 25 years ago. In 1989, co-founders Arnaud Solandt and Jean Rossard brought four generations of unique goat cheese "savoir-faire" from the southwest region of France to the US. At its plant in Belmont, Wisconsin, the company combines traditional French cheese-making techniques with daily shipments of locally sourced, premium fresh goat milk to produce its highly popular cheeses. By overseeing the entire production process, being involved from the farms to the final product, the company is able to ensure a standard of quality that has won it numerous awards over the years, as well as a highly devoted customer base.
