## About Somerdale

Founded in 1990, we now export to over 50 countries around the world, supplying over 250 cheeses. We represent some of the highest quality cheese producers in Great Britain and our range of products include traditional Cheddars, blue cheeses, flavored cheeses and traditional, hand-made artisan cheeses. Somerdale are the leading exporters of British cheese to the USA with shipments going into New York every week. We consolidate, ship and facilitate entry of all our products, taking away the hassle of buying specially imported cheese. We don't just offer the very best British cheese, but also provide extensive knowledge of how to market and sell the best of British. We have worked with specialty cheese retailers across the world, and are well placed to use that knowledge to promote British brands.
