

URBANI

New York, NY

Providing the world with the rarest
of delicacies.

About Urbani

Carlo Urbani started the company in 1850 and his descendants grew the business into one of Italy's leading companies. Today, the company is still owned and operated by the Urbani family. The standards of excellence that Carlo set over a century ago continue to define every truffle product the company makes. Urbani's truffle oils are infused with real truffle for a delicate, refined flavor that won't diminish over time the way that other brands do. Their truffle butters are rich, smooth and generously riddled with black truffle bits.
