

# URBAN REMEDY

We craft certified organic, ultra-fresh, ready to eat meals, snacks, and cold pressed juices, always gluten free, dairy free and non-GMO. Down to our salt, every ingredient is chosen for it's healing benefits.

We believe that food can be healing to people and the planet. Our founder, Licensed Acupuncturist & Herbalist, Neka Pasquale LAc, utilizes the wisdom of Chinese medicine to craft plant-based food that nourishes the body.

We are a Certified B Corp. We believe business can be a force for good and we strive for the highest standards of social and environmental performance and accountability.

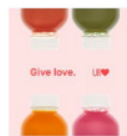

100% Recycled Packaging  
and fully recyclable

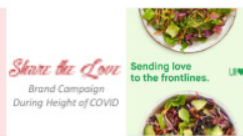

Doing Good for All Stakeholders and The Planet
